

DOUBLE BIKE LOCKER

Product Name: Double Bike Locker

Product Description:

British made, the Double Bike Locker is made from strong, galvanised (weather proof) steel.

The two independently locking doors (3 point, pick resistant locks), a tough steel internal division AND internal locking points ensures that two bikes can be secured totally independently of each other inside the same unit.

At 152kg in weight (that's over around 24 stone) these are heavy weight units suitable for use in both private and public areas.

Perfect for small areas with independent/shared use – use at the side of a house or flat.

Supplied with our comprehensive 10 year warranty – our units are built to last.

Fitted with our tough, pick resistant 3 point locking system.

Large doors – making it easy to wheel your bikes in and out.

Includes kit hooks – Hang helmets and bags with your bikes.

Units can be bolted down to the ground using the supplied securing bolts.

Additional cycle locking points inside the unit for extra security – just in case!

Each door locks independently of the other – with separate keys for each.

No dangerous sharp edges inside the unit.

A green or brown available – To suit any environment.

Designed and manufactured in the UK.
